ExploreDownload our free iOS or Android app and practice for your driving test offline or on the go. Visit your state's website and follow the instructions for creating an account. Frequently, most states allow you to renew a driver's license online by creating an account on a DMV website. Visit your state's Department of Motor Vehicles website to find out how to renew your driver's license. Renewing Your Driver's License Online When you receive a notice that you need to renew your driver's license, it will generally indicate your options for doing so. The best part? A lot of the tests are free - just like this one! We recommend using them to get a feel for the format and the style of the DMV tests, and then checking out our Premium program if you want to take your studying to the next level (and dramatically increase your chances of passing the real test the first time around.) View the most recent (2022) official KY KSP Driver's License Handbook. If you fail the test, you can try again on the next available test-taking day. Based on 2022 KY driver's license manual Available in English, Spanish and Russian Instant feedback This Kentucky KSP practice test has just been updated for March 2022 and covers 40 of the most essential road signs and rules questions directly from the official 2022 KY Driver Handbook. Be sure to have any important information handy, like your current driver's license, address and payment information. If you need to update your address while renewing your license, you may be required to renew in person. There is a \$10 fee for your Kentucky learner's permit. Many people do their best but still get to the DMV overconfident and underprepared because they fail to do some of the simple... And if you wish to receive a veteran designation on your renewed license, you should apply in person. However, some states allow you to change your address online at the same time that you submit a realtor's address online. A raise!
